1. General information

The foreign applicant quota includes foreign and stateless applicants who are not citizens of a European Union (EU) member state and who did not obtain their university entrance qualification (Abitur) in Germany.

In terms of admission regulations, EU citizens are treated equally to German applicants. This also applies to non-EU citizens who obtained their university entrance qualification in the Federal Republic of Germany.

You need to submit your application/request for admission online via the Augsburg University of Applied Sciences’ web server after you have registered on hochschulstart.de. You can only use the forms provided by the Augsburg University of Applied Sciences here (Applicant Portal). You fill out these forms online, print them out, sign them and then add other necessary documents. You need to upload the entire application online before the application deadline. An email with attachments will not be accepted.

Applications received by the Augsburg University of Applied Sciences that aren’t signed or uploaded with all required documents, will not be considered!

What do you need to observe?
- Enrollment process for restricted admission bachelor’s degree programs
- Application form (online application)
- Information sheet on the admission process
- Information sheet on prior practical experience
- If applicable, leaflet on the relevant suitability test

The current information sheet on the admission process provides important information on the admission process. It explains the procedure for acceptance, gives information on deadlines, the authentication of qualifications, documents to be included with the application, etc. The information sheet is an important part of the application. Therefore, please read through this information sheet carefully.

2. Application period

Winter semester: 2 May – 31 May for bachelor’s degree program Communication Design
2 May – 15 June for bachelor’s degree programs with suitability test
2 May – 15 July for NC bachelor’s degree programs
2 May – 15 July for NC-free bachelor’s degree programs

Summer semester: 15 November - 15 January for NC bachelor’s degree programs

The signed applications together with the required documents must have uploaded by the application platform on or before the last day of the application period. The deadline is a mandatory time limit.
3. Responsible office for application documents

Your application documents must be submitted completely digitally. Documents received by mail will not be considered. Unfortunately, it is also not possible to submit your documents in person.

If you need to submit documents later, you can also do so via our online system.

4. Special points for applicants with school leaving qualifications from abroad

- As a foreign applicant for a bachelor’s degree program, you require recognition of your university entrance qualification or school leaving certificate or access to university via the assessment test (preparatory college).

- On this topic, please make sure to read the current information sheet on the admission process – category: Special points for applicants from abroad and the information sheet on the qualification check via uni-assist.

- To gain admission to university via uni-assist, you also need to provide evidence of adequate German language skills.

Please make sure to observe the subject commitment on your preliminary review documentation. This may be limited to specific fields of study or even particular study courses: For example, an applicant with the subject commitment for economic sciences degree programs cannot take up a technical study course (mechanical engineering, IT, etc.).

5. Application procedure

Step 1: Register on hochschulstart.de
Please complete your registration on hochschulstart.de. Registering more than once is not permitted. Please keep in mind that the user account you create by completing the registration process will be used for applications made at a later date.

Step 2: Activate the user account on Hochschulstart
As soon as you complete the registration process you will receive an email with an applicant ID (applicant identification number) and the BAN (applicant authentication number). You will need both of these to submit your application on the university’s applicant portal.

Step 3: Register with the Augsburg University of Applied Sciences
To register with the Augsburg University of Applied Sciences, follow the link to the university’s online system, enter the applicant ID and the BAN you received by email previously, click “Enter data” and enter your email address and a suitable password. https://www.hs-augsburg.de/NC-Bachelorstudienangebote.html

Step 4: Verify your email address
Once you have registered, you will receive an email with a link. Click the link to verify your email address.

Step 5: Submit your application to the Augsburg University of Applied Sciences
Once you have completed these registration processes, you can submit your application on the university’s online applicant portal. You need to print off the Application for admission, signed it and upload on the online portal. The application must be uploaded completely by June 15th. An online application without supporting documentation will not suffice. Please note that June 15th is the submission deadline!

You can find a wealth of information on the application procedure, prioritising course preferences and accepting an offer of admission at www.hochschulstart.de - Bewerberinnen und Bewerber.
Step 6: Add all required application documents

Now you need to add all additional documents to your signed online application form.

As a foreign applicant with a university entrance qualification (e.g. school leaving certificate) from abroad, you need at least the following documents to apply for admission to the 1st semester:

- Preliminary review documentation from uni-assist
- Officially certified copy and translated copy of the university entrance qualification (corresponding to the documents that you submit to uni-assist)
- Proof of prior education abroad with the APS certificate of the academic test center for applicants from PR CHINA, VIETNAM and MONGOLIA
- Copy of your passport
- CV (in table form and chronological sequence)
- Proof of your German language skills (e.g. certificate of passed DSH examination)
- Proof of prior practical experience, only for the degree programs Architecture, Civil Engineering and Energy-Efficient Design and Construction (e.g. an internship certificate, vocational training qualification or a reference from a previous job).

The following documents can also be handed in at a later date. When you submit documents, you must always specify your applicant number and the degree program to which you have applied.

- Proof of preliminary review documentation (no later than 27 July or 30 January)
- Proof of German language skills (approx. last week in September/February)

**Please note:**
Only those applications which are uploaded complete and signed will be accepted! That is to say, simply filling in the online application form is not sufficient.

If you are applying to start in a higher semester, please contact the academic counselor of the degree program you wish to take in advance. This is the only way to clarify whether and which study credits can be taken into account and in which semester you can start.

Step 7: Submit the online application documents

The signed application together with the required documents must have been uploaded by the application platform on or before the last day of the application period. The deadline is a mandatory time limit.
6. Important contacts

The contact person for questions regarding the application in general is
Sachgebiet III/ Abteilung für Studienangelegenheiten.
Augsburg University of Applied Sciences
Subject Area III Student Affairs
At the university 1
86161 Augsburg

Room: A 2.05 (Building A)
Opening hours: Tuesday - Thursday from 9:00 a.m. to 12:00 p.m.
Service telephone number: 0821-5586-3950

Contact persons for questions regarding the individual study programs, as well as for the recognition
of previous study achievements (when applying for a higher semester) are the study advisors of the
individual study programs.

You can find information on the additional suitability tests/selection processes for the study courses on
the Internet pages of the respective courses:

- Architecture
- Interactive media
- Creative Engineering
- Communication design

7. Officially certified photocopy

An officially certified photocopy must meet certain formal requirements as compared to a standard photocopy.

The copy must be furnished with a note declaring that the copy and the original match (certification note), the signature of the certifier and an official seal. A simple stamp is not sufficient.

An official certification can only be recognized when it has been issued by a public body which carries an official seal. Official certification can be provided by authorities, notaries or churches organized under public law.

You can find more detailed information here, for example:
http://www.hochschulstart.de/index.php?id=beglaubigung

You can obtain certified copies in Augsburg here, for example:
Studentenwerk Augsburg – bst-Beratung, Eichleitnerstr. 30/II, 86159 Augsburg
