

Important notes and explanations on enrolment

1. I am aware that enrolment may be denied if I have been convicted of a criminal offense by a final court decision. Such a criminal offense, which leads to the exclusion of enrolment, exists in particular in the case of violations of the Narcotics Act as well as acts in connection with the use of violence against persons or participation and support of actions against dissenters, which are associated with violence. Actions of psychological content are also considered as violence. The university decides on the existence of an obstacle to enrolment. I assure that there is no legally binding criminal judgment against me. I do not suffer from any illnesses that could endanger the health of fellow students.
2. I am aware that the enrolment may be withdrawn if it was issued under a condition and I do not fulfil this condition in due time.
3. All information I have provided in connection with this matriculation is true. I am aware that false information may lead to the withdrawal of enrolment.
4. I am aware that during my studies, practical semesters, exercises and excursions are planned and that the respective regulations regarding participation are binding.
5. I acknowledge that software products provided to me by the university as part of my studies are subject to license terms. Any copying is strictly prohibited due to contractual and copyright regulations. The violation is punishable and leads to claims for compensation. I waive any liability claims against the university that may arise from the transfer. Insofar as the university is held liable due to conduct attributable to me, I indemnify the university against liability claims by third parties.
6. I am aware that communications from the university will be sent by mail and by email to the university email address. Failure to maintain a current mailing address or awareness of my university email account will be at my expense.
7. I declare that I have independently taken note of the general and special examination regulations relevant to my studies as well as all laws, ordinances and statutes relating to my studies (in particular the Bavarian University Innovation Act of 05.08.2022 - BayHIG).
